

INTERNATIONAL

UNDERGRADUATE PROGRAM

IUP or International Undergraduate Program is an undergraduate degree program taught in English. IUP is one of the flagship programs of Universitas Gadjah Mada (UGM) and is organized by undergraduate study programs in a number of faculties. This program gives the opportunity for the students to escalate their knowledge and experience in international exposures during their study. The international exposures that can be undertaken by students include a double degree program with a partner university abroad, student exchange, international internship(s), and short-term academic programs (international seminars/workshops, winter/summer courses, international championships, etc. The complete information about this program can be accessed on the website of each IUP as follows.
